---

We're meeting from 1:00 - 3:00 at the City.

Here's what the agenda is looking like:

1:00 - 2:00: MODELING

Bruce Hope will provide an overview of the model and answer questions. I don't believe he has been able to do any model runs yet, but we can talk about what we want him to do (see attached workplan, as well as comments in Eric's email) and the timeline for getting it done.

2:00 - 3:00: MISC TOPICS

- Eric's comments
- Sampling Plan for City Outfalls
- Meeting with LWG in October

See you tomorrow - - -
